Salient feachers of your Ph.D Research work (Maximum 100 Words)

I have done a comparative study on the ‘ Pranaya Chetana’ of two prominent poets of India, One is from Hindi Literature named Maha Devi Verma& the other is from Odiya Literature nameds Nirmala Devi. I respect of their life span, child-marriage, contents of the poems (Pranaya Chetana) & popularities, both of them have wonderful resemblance.Mahadevi won Gyanapith Award & Nirmala Devi won odiya sahitya Akademi Award. After thorough comparion of their’ Kavyas’ I have shown that The ‘Sanyoga Pakhsh’ of Nirmala Devi is better than Mahadevi Verma. But in ‘ Viyoga Pakhsh’ & Prakriti ke Madhyam se Pranaya Chetana’ Mahadevi verma is Far better than Nirmala
